

34mm DVD-10 printing template

(for one sided read through printing)

printable area

Files should be supplied using the CMYK, Pantone coated or grayscale colour formats.
Raster / image files should be minimum 300 dpi. Smallest font size is 4pt Helvetica regular.
Stroke width should be 0.5pt to avoid a razor/sawtoothed edge.
Avoid type effects on text smaller than 7pt Helvetica regular.

Disc side A - create your artwork to read backwards for example: DISC SIDE A

Middle colour flood - this can print white or any other solid colour

Disc side B - create your artwork as a normal single sided disc: DISC SIDE B
